Some Broken Hearts Never Mend by Don Williams

[Verse]

```
           A      E
Coffee black, cigarettes
                            A
Start this day like all the rest
D                                A
First thing every morning that I do
    E
Is start missing you
```

[Chorus]

```
A           E
Some broken hearts never mend,
                     A
Some memories never end,
                D
Some tears will never dry,
E                           A
My love for you will never die
```

[Verse]

```
      A           E
Rendezvous in the night
                            A
A willin’ woman to hold me tight
    D                         A
But in the middle of loves embrace
  E
I see your face
```

[Chorus]

```
A           E
Some broken hearts never mend,
              A
Some memories never end,
                D
Some tears will never dry,
E                           A
My love for you will never die
```
