

Til' The Storm Passes By - Traditional

Strumming Pattern: none

In this song I didn't include a strumming concept because it sounded WAY too cheesy. Instead, I recommend using fingerstyle the whole time. The chords are easy, so be sure to check out the "Fingerstyle Reference" file included on this song.

**G** **D**  
In the dark of the midnight have I oft hid my face,  
**C** **G**  
While the storm howls above me, and there's no hiding place.  
**C**  
'Mid the crash of the thunder, Precious Lord, hear my cry,  
**G** **D** **G**  
Keep me safe till the storm passes by.

Chorus

**D** **G**  
Till the storm passes over, till the thunder sounds no more,  
**A7** **D**  
Till the clouds roll forever from the sky;  
**G** **C** **G**  
Hold me fast, let me stand in the hollow of Thy hand,  
**D** **G**  
Keep me safe till the storm passes by.

**D**  
Many times Satan whispered, "There is no need to try,  
**C** **G**  
For there's no end of sorrow, there's no hope by and by"  
**C**  
But I know Thou art with me, and tomorrow I'll rise  
**G** **D** **G**  
Where the storms never darken the skies.

Chorus

**D** **G**  
Till the storm passes over, till the thunder sounds no more,  
**A7** **D**  
Till the clouds roll forever from the sky;  
**G** **C** **G**  
Hold me fast, let me stand in the hollow of Thy hand,  
**D** **G**  
Keep me safe till the storm passes by.  
**D** **G**  
Keep me safe till the storm passes by.
