Riffs Used

Riff 1:

H H

(there isn't technically a riff 2, but I have labeled this as riff 1 because you don't HAVE to play this riff to make it work. You can just play the C# a second and then the actual A barre chord, which is part of both chords with the exception of the hammered note on the "9". Notice that the hammered note on the "6" indicates an A Major barre chord.)
