

Maybellene by Chuck Berry

[Chorus]

Maybellene, why can't you be true  
                  D7                                  A  
Oh, Maybellene, why can't you be true  
                  E7                                  D7                                  A  
You've started back doin' the things you used to do

[Verse 1]

As I was motivatin' over the hill  
I saw Maybellene in a Coupe de Ville  
Cadillac rollin' on the open road  
Nothin' outruns my V-8 Ford  
Cadillac doin' 'bout 95  
Bumper-to-bumper, rollin' side by side

[Chorus]

Maybellene, why can't you be true  
                  D7                                  A  
Oh, Maybellene, why can't you be true  
                  E7                                  D7                                  A  
You've started back doin' the things you used to do

[Verse 2]

Cadillac rolled up ahead of the Ford  
The Ford got hot, wouldn't do no more  
It soon got cloudy and it started to rain  
I tooted my horn for the passing lane  
Rain was pourin' under my hood  
I knew that was doin' my motor good

[Chorus]

Maybellene, why can't you be true  
                  D7                                  A  
Oh, Maybellene, why can't you be true  
                  E7                                  D7                                  A  
You've started back doin' the things you used to do

(instrumental, same pattern as chorus)

[Chorus]

Maybellene, why can't you be true  
                  D7                                  A  
Oh, Maybellene, why can't you be true  
                  E7                                  D7                                  A  
You've started back doin' the things you used to do

[Verse 3]

Motor cooled down, the heat went down

Maybellene by Chuck Berry

That's when I heard that highway sound  
The Cadillac sittin' like a ton of lead  
110 half a mile ahead  
The Cadillac looked like it was sittin' still  
I caught Maybellene at the top of the hill

[Chorus]

Maybellene, why can't you be true

D7

A

Oh, Maybellene, why can't you be true

E7

D7

A

You've started back doin' the things you used to do
