

Disarm - Smashing Pumpkins

Strumming Pattern: DU, D, DDDDD...etc. to next chord

There are a BUNCH of downstrokes after each pattern, so I didn't count them.

To emphasize the proper chords, focus the DU at the very beginning of each series of chords, and then use the DU to transition to each additional chord. You may want to practice just playing all 8th notes at first, but it might slow down your groove. I think once you play through this a few times you'll find the DU.

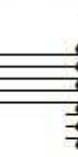

(8th-note strumming with 16th note parts here & there)

Tempo: 128 BPM

Chords Used:

Some of these chords might have weird names, but this is the overall structure of the chord progression:

Any note in parenthesis indicates that it CAN be played, but isn't necessary in this song. Try your best to keep your 3rd and 4th fingers firmly placed on the B and High E strings and the progression is MUCH easier. The rest of the movements are primarily performed with your 1st and 2nd fingers.
