

Night Train by Jason Aldean

[Intro]

Bm G D A

[Verse 1]

D I've been thinking 'bout you all day baby G  
D Waiting on that sun to go... down G  
D What you say I pick you up after work  
A Slide over and slip out to the outskirts... of town G  
D Got a blanket and a fifth of Comfort G  
D A little something to knock off the edge G  
D It's supposed to get a little cold tonight  
A Looks like I'm gonna have to hold you tight, yeah G

[Chorus]

Bm About a mile off Old Mill Road  
G That spot nobody knows  
D We park the truck and we take off running  
A Hurry up girl I hear it coming  
Bm Got a moon and a million stars  
G The sound of steel and old box cars  
D The thought of you's driving me insane  
A Come on baby let's go listen to the night train G

[Verse 2]

D G

Yeah I hope it's gonna be a long one  
D G
