[Verse 1]

C  
I'm a stone's throw from the mill  
F C  
And I'm a good walk to the river  
F C  
When my workin' day is over  
Am G/B C  
We'll go swim our cares away  
C  
Put your toes down in the water  
F C  
And a smile across your face  
F C  
And tell me that you love me  
Am G/B C  
Lovely Lady May

[Chorus 1]

Am C/B C  
Now I ain't the sharpest chisel  
F C  
That your hands have ever held  
Am G/B C  
But darlin' I could love you well  
F C  
'Til the roll is called on high  
Am G/B C  
I've seen my share of trouble  
F C  
And I've held my weight in shame  
F C  
But I'm baptized in your name  
Am G/B C  
Lovely Lady May

[Verse 2]

          C  
Lord the wind can leave you shiverin'  
          F                          C  
As it waltzes o'er the leaves  
          Am          G/B          C  
It's been rushin' through my timber  
          F                          C  
'Til your love brought on the spring  
          C  
Now the mountains all are blushin'  
          F                          C  
And they don't know what to say  
          Am          G/B          C  
'Cept a good long line of praises  
          F                          C  
For my lovely Lady May

[Chorus 2]

          Am          G/B          C  
Now I ain't the toughest hickory  
          F                          C  
That your axe has ever felled  
          F                          C  
But I'm a hickory just as well  
          Am          G/B          C  
I'm a hickory all the same  
          Am          G/B          C  
I came crashin' through the forest  
          F                          C  
As you cut my roots away  
          F                          C  
And I fell a good long ways  
          Am          G/B          C  
For my lovely Lady May
