

Strip It Down by Luke Bryan

Capo 2

[Verse]

Am

Let it fade to black

C

Let me run my fingers down your back

G

Lets whisper, let's don't talk

Baby leave my T-shirt in the hall

Am

Like a needle finds a groove,

C

Baby we'll remember what to do

G

to drown out every distraction,

it's time we made it happen

[Chorus]

Am

Strip it down, strip it down

C

Back to you and me like it used to be

G

When it was an old back road with an old school beat

Cowboy boots by your little bare feet

Am

Let it out, tell me right now

C

Everything I need In them white cotton sheets

G

Dirty dance me slow in the summertime heat

Feel my belt turn loose from these old blue jeans

Am

C

We both know we lost it somehow

Let's get it back

G

Strip it down, down, down

[Verse]

Am

I wanna drop this cellphone now

C

And Let it shatter on the ground

G

They ain't holdin' nothin, these two hands

'Til they're holding you again

[Chorus]

Am

Oh, Strip it down, strip it down

C

Back to you and me like it used to be

G

When it was an old back road with an old school beat

Cowboy boots by your little bare feet

Am

Let it out, tell me right now

C

Everything I need In them white cotton sheets

G

Dirty dance me slow in the summertime heat

Feel my belt turn loose from these old blue jeans

Am

C

We both know we lost it somehow

Let's get it back

G

Strip it down down down

Strip it down down down

[Verse]

Am

I don't wanna let you go

C

No, not tonight

G

I just wanna love you so bad baby

So lets close our eyes

[Chorus]

Am

And Strip it down, strip it down

C

Back to you and me like it used to be

G

When it was an old back road with an old school beat

Cowboy boots by your little bare feet

Am

Let it out, tell me right now

C

Everything I need In them white cotton sheets

G

Dirty dance me slow in the summertime heat

Feel my belt turn loose from these old blue jeans

Am

C

We both know we lost it somehow

Let's get it back

G

Strip it down down down

Strip it down down down
