Millionaire by Chris Stapleton

Capo 3

```
G       320033
Cadd9   x32033
Csus2   x30033
D       xx0232
D/F#    200232
G/B     x20033
```

[Chorus]
```
        G             Cadd9        G
They say love is more precious than gold
                   D               Cadd9 Csus2
It can't be bought and it can't be sold
        G     Cadd9    G
I've got love enough to spare
             D           Cadd9 Csus2
That makes me a millionaire
```

[Verse]
```
G/B Cadd9                          G
        I've got a woman with eyes that shine
D/F# Cadd9            G       D/F#
 Down deep as a diamond mine
Cadd9                         G
   She's my treasure so very rare
D/F#       Cadd9         G
 She made me a millionaire
D/F# Cadd9                              G
        When we ride around, ride around this old town
     D/F#    Cadd9               G
In my beat up car with the windows down
D/F# Cadd9                               G
        People look at her and then they look at me
           Cadd9                    G     D
And say "that boy is sure living in luxury"    Sweet luxury
```

[Chorus]
```
        G             Cadd9        G
Because love is more precious than gold
                   D               Cadd9 Csus2
```

```
It can't be bought and it can't be sold
        G       Cadd9     G
I've got love enough to spare
            D              Cadd9 Csus2
That makes me a millionaire

[Bridge]
G/B Cadd9                                 G
        When the kisses fall from everywhere
   D/F#      Cadd9        G       D/F#
Life reaches on, millionaire
Cadd9                                            G
    When the pocket's are empty and the cupboard is bare
D/F#    Cadd9               G      D
I still feel like a millionaire

[Chorus]
       G           Cadd9         G
Because love is more precious than gold
               D                 Cadd9 Csus2
It can't be bought and it can't be sold
        G     Cadd9     G
I've got love enough to spare
            D              Cadd9 Csus2
That makes me a millionaire
```
