Tulsa Time - Eric Clapton

```
A
I left Oklahoma, Driving in a pontiac
                        E
Just about to lose my mind.

I was going to Arizona, Maybe on to california
                        A
Where people all live so fine.

My mother says I'm crazy, my baby calls me lazy
                        E
But I'm gonna show them all this time

'cause you know I ain't no fool and i don't need no more damn schoolin'
                        A
I was born to just walk the line.

                                      E
Living on tulsa time, Living on tulsa time

Gonna set my watch back to it
                                              A
'cause you know that I've been through it, living on tulsa timeChorus

So there I was in hollywood, thinking I was doing good
                        E
Talking on the telephone line

They don't want me in the movies and nobody sings my songs,
                A
My mama says my baby's doing fine.

So then I started winking, then I started thinking,
                        E
That I really had a flash this time
O
That I had no business leaving, and nobody would be grieving,
                    A
You see I'm on tulsa time.

                                      E
Living on tulsa time, Living on tulsa time

Gonna set my watch back to it
                                              A
'cause you know that I've been through it, living on tulsa time
```
