Take It To The Limit – The Eagles

CAPO 4th Fret

Strumming Pattern: D, DUDU, D, DUDU (repeat)

There is the whole 'take it' part, which is just a quick DD, or DU.

Chords Used:

G   G B D G B G

C   E C E G C E

B7   B D# A B F#

Em   E B E G B E

D   A D A D F#

Am   E A E A C E

INTRO: G – C – G – D – C

Note about intro: If you want to do what I did in the video, all I did was play the G
chord, then open the A string note. For the C, I opened the D string. Getting the
picture? It's EASY!

```
      G                         C
All alone at the end of the evening
        G                           C
and the bright lights have faded to blue.
      G                 B7                    Em
I was thinking 'bout a woman who might have loved me,
             D
but I never knew.
G                       D             G                           C
      You know I've always been a dreamer (spent my life runnin' round)
                    G                   C
and it's so hard to change (can't seem to settle down)
                        Am                        C
but the dreams I've seen lately   keep on turnin' out
                     D             C     D
and burnin' out and turnin' out the same.
```

CHORUS:

```
    C            G            C            G
So put me on a highway and show me a sign
     C             D              G
and take it to the limit one more time.
```

INTERLUDE: G – C – G – D – C (same as intro)

```
          G                           C
You can spend all your time making money,
            G                          C
Or you can spend all your love making time.
       G            B7         Em
If it all fell to pieces tomorrow
                         D
would you still be mine?
```

```
G                     D               G                 C
    And when you're looking for your freedom (nobody seems to care)
                      G                    C
And you can't find the door (can't find it anywhere)
                    Am                        C
when there's nothing to believe in  still you're coming back,
                        D               C D
you're running back, you're coming back for more.
```

CHORUS:

```
    C            G            C            G
So put me on a highway and show me a sign
      C             D              Em
and take it to the limit one more time.
```

```
C               D    C              D
Take it to the limit, take it to the limit,
C               D              G
take it to the limit one more time.
```

(repeat intro/interlude and end on G)
