

Quick Notes: Blackbird – The Beatles

Tempo: about 90 bpm (also included is 70 and 80 bpm)

I covered the intro and verse theme, which is a vast majority of the song itself as far as what is physically played. The fingerings (both for fretting and picking hand) will get you through the entire song, so just use those to guide you. The chorus has an F and a Bb in it, which wasn't use in the intro/verse, but they would be approached just as you see below for the fretting and picking hands.
